

**CRITICAL RAW MATERIAL ELECTROCATALYSTS REPLACEMENT
ENABLING DESIGNED POST-2020 PEMFC**

Grant agreement no.: 779366

Start date: 01.01.2018 – Duration: 36 months

Project Coordinator: Deborah Jones – CNRS

DELIVERABLE REPORT

DELIVERABLE 7.1 – PROJECT WEBSITE		
Due Date	31st March 2018	
Author (s)	N. Cros	
Workpackage	WP7	
Workpackage Leader	PXO	
Lead Beneficiary	PXO	
Date released by WP leader	25th April 2018	
Date released by Coordinator	26th April 2018	
DISSEMINATION LEVEL		
PU	Public	X
PP	Restricted to other programme participants (including the Commission Services)	
RE	Restricted to a group specified by the consortium (including the Commission Services)	
CO	Confidential, only for members of the consortium (including the Commission Services)	
NATURE OF THE DELIVERABLE		
R	Report	
P	Prototype	
D	Demonstrator	
O	Other	X

SUMMARY

Keywords	Website communication dissemination
Abstract	<p>The CRESCENDO project website is designed to support the project communication and dissemination activities towards the scientific community and the public. It provides:</p> <ul style="list-style-type: none"> - project overall objectives, partner & work packages information - project activities: news, meetings - project progress: references to publications, conference presentations, public deliverable reports - project resources: links, related events ... - project contact information and newsletter subscription. <p>All the partners will collectively participate in the communication dissemination objective of the website.</p>

1. Introduction

This deliverable report documents the implementation of the Project Web Site for the CRESCENDO project. This website is available at the following address:

<http://www.crescendo-fuelcell.eu/>

2. Scope

The public website will promote the CRESCENDO project through information including project objectives, partner descriptions, public deliverable progress reports, dissemination activities, news... aimed at the broader scientific community and the public.

3. Discussion

a. Host

The CRESCENDO website is online from 25th April 2018, hosted on a dedicated server. The server, property of PXO, is an Optiplex GX620 Dell machine (2.8 GHz, 800 MHz bus) with two SATA hard-drives of 80 GB (the second one being dedicated to daily backup) and 2 GB 533 MHz DDR memory.

b. Main Features

▶ Permanent information:

- **Home:** General information on the project
- **About CRESCENDO:** Project, partners & work packages presentation and description
- **Contact:** coordinator information, and online form for information request
- **Newsletter subscription**

▶ Live information:

- **Activities:** publications, conferences, dissemination ...
- **News & events**
- **Resources:** recent updates, related events, links of interest

A screenshot of the Home page of the CRESCENDO website is given below.

HOME ABOUT US ACTIVITIES RESOURCES CONTACT LOGIN

The banner features a central white box with the text: **CRESCENDO**
Critical Raw material ElectroCatalystS replaCement
ENabling Designed p0st-2020 PEMFC
FCH2 JU FUNDED PROJECT

Surrounding this are four blue panels with white text and 'MORE INFORMATION' buttons:

- Partnership**: The CRESCENDO consortium brings together industrial and academic partners with complementary skills and competences to reach its goals.
- CRESCENDO Objectiv**: Develop highly active and stable non-PGM catalysts for PEMFCs, enabling the replacement of the platinum catalyst.
- Environmental Benefits**: An innovative, cost-effective and sustainable technology for PEMFCs, enabling the replacement of the platinum catalyst, with performance equivalent to the platinum catalyst.
- Non-PGM catalysts**: To be able to use non-PGM catalysts for PEMFCs, it is necessary to develop highly active and stable non-PGM catalysts.

CRESCENDO is a European project involving two large industrial partners, an SME, and five universities / research institutes in an ambitious proposal that will require critical mass, pooled complementary skills and competences to reach its goals.

Starting date: 1st January 2018 - **Duration:** 3 years

----- CNRS - Centre National de la Recherche... JMFC - Johnson Matthey Fuel Cells Ltd,...

4. Conclusions and future work

The CRESCENDO website is designed to support the project communication and dissemination activities towards the scientific community and the public.

All CRESCENDO partners will collectively participate in the dissemination objective of the website by providing information updates, project highlights, job opportunities, related events announcements, list of CRESCENDO publications, public abstracts of these publications, lists conference presentations, and links to public deliverable reports.
